

き · ki

Ki in hiragana is き. Written by hand it has 4 strokes; print often joins the lower part.

Writing model

Joined, in print: read it, but copy the writing model

1

2

3

4

Write it, stroke by stroke.

1. Starts left of center, near the top; a short line rising gently right. — stop (とめ)
2. Starts under stroke 1, above the middle; a second, slightly longer line. — stop (とめ)
3. Starts at the top; slants down across both lines, then flicks left. — hook (はね)
4. A separate stroke: starts low left and curves right like a shallow bowl. — stop (とめ)

Watch for: Writing the two top lines far apart. **Fix:** Keep the second line above the horizontal center line, as far below the first as in the model: not far apart, not squeezed together.

えき · eki · station

きく · kiku · to listen; to hear; to ask

きれい · kirei · pretty; clean

Trace, copy, then cover the model and write from memory.
